

**Presents****A 5-Day Virtual Practical Corporate Finance Management Faculty Certification Programme (Modules 1 - 2)****Preamble**

Corporate Finance Management Faculty is charged with the responsibility of building capacity for members in the corporate finance industry. This is to ensure they are armed with skills and competences to surmount the challenges imposed on them in the economy by globalization and the disruptions in information technology, which have led to increased responsibilities beyond the traditional functions. Thus the Faculty has assembled top rated professionals to take the participants through hands-on training.

**Benefits to Participants:**

- Practical skills tailored to the needs of corporate financiers.
- Capacity building for International recognition and mobility.
- Unique networking opportunity with a wide range of fellow corporate finance professionals and contact with corporate finance leaders.

**Benefits to Employers:**

- Accelerate professional development and fast track management potentials while encouraging employee loyalty.
- Engender practical application of practice skills and technical expertise that can be utilized immediately within the workplace.
- Enhanced leadership skill needed at the top management level.

**Date:** May 30th to June 3rd, 2022**Venue:** Virtual**Time:** 9:00am prompt each day**MCPD:** 15 units
