ICAN has the mission statement: "To produce world-class chartered accountants, regulate and continuously enhance their ethical standards and technical competence in the public interest".

Specifically, I propose to make certain interventions in the following areas and bring this to bear in my capacity if elected into Council.

- Facilitate collaboration and bring to bear global resources and best practices to assist in positioning the Institute.
- Increase the visibility of the institute and relevance by engaging and creating an interface with global institutions.

I have practiced my career in a first class professional service firm with high ethical standard and technical competency in audit and accounting practice. Our Institute should be a place of pride and it can only get better and make more meaningful impact in the society if we all standup to serve.

I am positive that my election into Council will give me the veritable platform to make a positive impact towards the growth of our profession and also bring about new ideas and initiatives to the Council. With the diverse experience and skills I have acquired over the years, I believe I am in good standing to make these contributions.

I have read and understood the 2020 Call for Nominations, Electoral Rules and Regulations contained therein and I agree to abide by all the Election rules and regulations.
